McAllister
Montana

Dear Mr. Weisberg,

I truely profited from listening to your conversations concerning the Kennedy assasination through a Utah radio station this evening. I am glad that a man of your seeming integrity is searching for the facts and in the proper way.

The questionableness of the Warren report has been brought to my attention by my Cuban roommate at Georgetown Prep School in Garret Park, Maryland.

I would like to know if the two of us could interview you this fall both for our own benefit and for an article for our school magazine "The Blue and Gray," (circulation about 1500).

My chemistry teacher Joseph Readon, S.J. had apparently met and talked with Lee H. Oswald at his seminary in Spring Hill, Alabama. We will bring him if he is available. However I do not think he is teaching at school this fall.

If you have time for an interview such as this we could probably drive to your house, or meet you in Washington or at our

school which is outside of Washington, D.C. on Rockville Pike. School begins on September 13. Any time after this would be fine. The school's phone # is WH-2-4900.

Sincerely yours,

John V. Dennis, Jr.

P.S. My home is on a farm near Leesburg, Virginia. I have a job on a ranch in Montana for the summer.
